A MEMBER OF THE BRITISH GLIDING ASSOCIATION

Want to improve your flying?

Bristol and Gloucestershire Gliding Club are now offering learning weeks to allow you to develop your flying.

We can offer:

- Ab-initio (pre-solo) instruction
- Bronze preparation and testing
- Basic aerobatics
- Aerotow training
- Cross-country training

You will have the undivided attention of our weekday instructor who will tailor the week to your requirements.

Why us?

BGGC (Nymphsfield) is in a prime location to exploit thermal and ridge, it's also possible to soar wave downwind of the Black Mountains on the right day! We have a wide fleet of gliders from K8 right up to our LS4, DG-505 and (if available) DG1001. We also have 2 Supacat winches along with a Pawnee tug. Dedicated Learning Weeks run Mon-Fri, once/month through the soaring season and are offered to members of any BGA club.

For more information, schedule and costs please see the website or contact us:
